PROFESSIONAL SUMMARY

Associate Software Engineer with 2+ years of experience in full-stack and backend development using **C#, .NET Core, Java, Spring Boot, SQL and React**. Delivered enterprise CRM features and **REST APIs**, launched a Release Management platform linking Jira, Jenkins and GitHub that cut release time from 2 weeks to 2 days, and pioneered **Generative AI** solutions using **LLMs, RAG and MCP**, including queue-based AI messaging.

TECHNICAL SKILLS

Languages: C#, Java, JavaScript

Backend: .NET Core, ASP.NET Core, MVC, REST APIs, Microservices, Spring Boot

Frontend: React, HTML, CSS

Databases: SQL Server, MySQL, MongoDB, ChromaDB, Pinecone

CI/CD: TeamCity, Octopus Deploy, Jenkins

Tools: Git, GitHub, Postman, Jira, Confluence, Kibana, GitHub Copilot, Agile

AI: LLMs, OpenAI API, Anthropic Claude API, NLP, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Prompt Engineering

PROFESSIONAL EXPERIENCE

Solera India Pvt. Ltd. **June 2025 – Sep 2026**
Associate Software Engineer 1 *Bengaluru, India*

- Enhanced and maintained enterprise CRM web applications using **C#, .NET Core, ASP.NET Core, JavaScript, React and SQL** across multiple modules.
- Implemented **Click-to-Buy** integrations and enhancements for 2 Hyundai automotive platforms (US and Canada).
- Optimized **REST APIs**, business services and **SQL stored procedures** to support integrations and improve performance.
- Established email domain compliance validation covering 3 authentication protocols: **SPF, DKIM and DMARC**, and configured **Send From / Reply From** email workflows across modules.
- Improved reporting and database components to support **30-minute timezone offsets**, ensuring accurate date and time handling across global regions.
- Resolved production issues and supported deployments and releases, coordinating with 5 cross-functional teams (Cloud, IT, SCM, DBA and QA) in an **Agile** environment.

TAP Academy **July 2024 – April 2025**
Java Full Stack Web Development Intern *Bengaluru, India*

- Completed hands-on training in **Core Java** (OOP, multithreading, exception handling) and **MySQL** database management.
- Programmed **Java** applications with database integration, applying programming fundamentals and **SQL** queries.
- Assembled and connected front-end (**HTML, CSS, JavaScript**) and back-end (**Java, MySQL**) components in full-stack projects.
- Strengthened debugging and application development skills through practical exercises and projects.

PROJECTS

Release Management Application (ASP.NET Core, React, SQL)

- Architected a full-stack application pulling release details from **Jira, Jenkins and GitHub APIs**, cutting release processing time from about 2 weeks to 2 days.
- Secured the application with **role-based access control (RBAC)** and **Microsoft SSO**.

AI Response Scheduling & Messaging (C#, .NET Core, Generative AI)

- Introduced configurable **AI response modes** with 3 controls: response windows, holiday restrictions and fallback behavior.
- Orchestrated **queue-based asynchronous message processing** for delayed AI responses and fixed time-zone timing issues.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering **2024**
S G Balekundri Institute of Technology, Belagavi *CGPA: 8.4*
